

## **PARENT GROUP: PARTICIPANT INFORMATION SHEET**

### **Tell us what you think about the group!**

We are asking you to take part in giving us feedback about the parent group. Before you choose if you want to, it is important you understand why we are doing this and what we will ask you to do. If there is anything you are not sure of, please do say, I will be happy to help. You can call (number) or email me (add email).

### **What is the evaluation about?**

We would like to find out what it is like to be part of the parent group. We would like to know:

- What you think works well / what didn't work well
- What you liked / what you didn't like
- Whether you feel more satisfied with things in your life
- Whether your relationships have improved

We can then improve the group based on all the feedback we get. We want to know if the group has helped you in any way.

The development of the materials for this group was funded by the Youth Justice Board.

### **How do I take part?**

If you choose to take part in the evaluation, we would like to ask you some questions at the start and end of each session and at the very end of the group. This could be by questionnaire, by discussion or a mixture of both.

### **Do I have to take part?**

No. It is your choice. We won't mind if you decide not to take part in the evaluation and it won't stop you being able to participate in the group. You can also withdraw your consent at any time, just let me know, or via our privacy notice (see further down).

### **What will happen to the information I provide?**

The information you provide will be used in a report. The report will talk about what the parent group is, how it runs, what works well, what parts could be done differently, and who it works best with, based on what you and others tell us.

If you agree, we would like to be able to use some of your information. For example, we may want to quote something you say. We may also want to highlight your journey via a case study. We will never include your name, age, address, or other information that could make you identifiable to others.
